Hollister Rand is an internationally renowned medium. Known for her extraordinarily detailed work, she provides specific messages from loved ones living in the spirit world with feeling, heart, and grace.

Hollister is clairvoyant, clairaudient and clairsentient (meaning that she can see, hear and feel the presence of spirits as well as get a sense of their personalities, emotions, physical attributes and illnesses). Her unique gifts have provided comfort and closure for people all over the world.

"Life is never over," says Hollister Rand. "Those we love are still as interested in our lives as they were when they were here. Damaged relationships can be healed by talking with Spirit; broken hearts can be mended; questions answered. It is never too late to say 'I love you' or 'I'm sorry.' It is never too late to give or receive forgiveness. Those opportunities do not end with what we call death."

The scope of Hollister's work demonstrates her commitment to integrating spirit communication into everyday life. Her messages delivered in a clear and heartfelt way, focus on the healing aspect of re-establishing a relationship that has been broken by death. Her well documented ability to express the personalities of those living spirit provides additional comfort to those in need, allowing them to finish what is unfinished and say what needs to be said.

With her personal charm, sense of humor, and compassion, Hollister makes it seem as though communicating with spirits is an everyday thing. And for her, it is. Even as a very young girl, Hollister started seeing and speaking with spirits. In her grade school years, spirits filled the stairway leading to her bedroom door and surrounded her bed each night. Not always welcomed, these presences made for many restless nights. Through the years, however, Hollister learned to "turn on and turn off" her spirit receptors, and get a good night's sleep.

During the last 20 years, Hollister's dedication to integrating mediumship into everyday life has extended through her public appearances, writings, published works, and teaching workshops throughout the U.S. and abroad.

Hollister has moved national and international audiences with messages of love, hope and healing through demonstrations of spirit communication and television and radio appearances. Her messages on KOST FM's, "Angels in Waiting" and KBIG FM's, "Radio Medium" have touched the lives of thousands of people. Extending her vision to

an online audience, she has teamed up with internationally acclaimed medium John Edward for InfiniteQuest, a "one-stop" portal of internet resources for the soul. ([www.infinitequest.com](http://www.infinitequest.com))

Her interest in supporting the science of spirit communication led Hollister to present seminars and workshops with leading researchers in afterlife science. She is consulted as an authority on the subject of life after death by journalists, screenwriters and documentarians.

Articles about Hollister's work have appeared online in a number of outlets including United Press International, Religion and Spirituality.com, Arcamax, SpiritsNewsletter.org and the Press-Enterprise Newspaper of Southern California, among others.

On her CD *Many Doors - An Introduction to Mediumship*, Hollister takes listeners on a journey through the doors that separate life, death and life after life. Throughout this entire one hour experience, Hollister introduces the idea that life is divided by death, not ended by it. With guided meditations, she creates a safe and healing space for making personal connections to those living on the other side of life. The exercises on this CD are effective for both beginners and those who are experienced.

Hollister's desire to share the healing heart of mediumship leads her to write extensively. Hollister's monthly email newsletter, *MESSAGES ~ Love, Hope and Healing in Spirit*, is filled with "how to" articles, inspirational stories, and explores how we all can connect with loved ones in spirit.

Hollister has recently closed a deal with a major publisher and is currently writing her first book about her experiences with those living in the spirit world. Look for it in bookstores and online starting early in 2011.
